LOVING MOTION

LEFT OPEN UNTIL TOMORROW BY JUDGE REED TODAY.

Witnesses Could Not Be Secured—Other Matters Have De-layed It.

The motion for a new trial in the H. H. Loving murder case is still hanging fire, on account of attorneys for the defense being unable to get all the witnesses necessary before the court.

Clarence C. Clarkson, who made a sensational affidavit which is relied on by the prosecution to gain the new trial, could not be found yesterday and the court gave until this morning to get him. He was not found today and other matters delayed the completion of the defense's argument and resulted in Judge Reed's leaving the motion open until tomorrow.

Loving has never been sentenced and is still in the custody of the jailer. He seems hopeful of getting a new trial. He is cheerful and wears a smile for all visitors at the jail.

Kentuckians With Funny Names Marry.

St. Louis, Dec. 22.—When Frank Fivecoat, aged forty-one, and Miss Lou Lively, aged thirty-three years both of Henderson, Ky., appeared in the Fourth district court to be married. Justice Carroll looked at them suspiciously, and inquired whether they had really given him their correct names. Flushing slightly, Fivecoat assured his honor that no attempt at deception was being practiced, whereupon the marriage ceremony was performed. The couple met the same trouble at the marriage license bureau, the clerk of which at first thought he scented an attempt to play some kind of a joke.

Christmas Day in The Navy

By A. W. Ferrin

Copyright, 1905, by A. W. Ferrin

THERE is one feature of civilization which always follows the flag around the world. That is the spirit of Christmas. Whether the 25th of December finds an American warship that place is on Santa Claus' map, though to get there he may have to shed his furs and change his reindeer for a team of porpoises. The seafaring man is sentimental to a degree, and no one of his fellow citizens celebrates the Yuletide with more enthusiasm than the man behind the gun.

Lying in one of Uncle Sam's navy yards or anchored in the sheltering harbor of some home port, where proximity to shore insures an abundance of the usual accessories, Christmas on board a man-of-war is not essentially different from the holiday of the landlubber. It is on the foreign stations, and especially those in tropic seas, that Jacky has to exercise his well known ingenuity to create a Christmas atmosphere. On many a battleship and cruiser have bamboos done duty as Christmas trees, banana leaves as bolly and cacti as table decorations. Many a Chinese pheasant or other heathen bird has masqueraded at the Christmas dinner as a North American turkey.

The navy's Christmas really begins at noon Dec. 24. After that hour discipline is relaxed and all hands are piped to the work of preparing for the morrow's festivities. The sun must not rise on masts or yardarms naked of Christmas greens, and all night the cook's galley fires are hot—a special concession from the "old man"—baking pies and cakes innumerable.

On Christmas morning the usual routine is omitted. During the forenoon religious services are held on vessels on which there are chaplains. Otherwise the sailor man is left to his own devices until noon. Then comes the event of the day—the Christmas dinner.

JACKIES PREPARING THE CHRISTMAS DINNER.

Uncle Sam feeds his seagoing servants pretty well at all times, but at Christmas he spreads himself. Besides, the Jackies generally have a few gold pieces saved up to put on the finishing touches, and the committee on comestibles is kept busy for days before the festival hunting all kinds of delicacies to their lairs. The result is a dinner which would make any man's mouth water on sea or land. One year on the Texas, for example, the menu of the forecastle Christmas feast consisted of oyster soup, roast turkey and cranberry sauce, boiled cold tongue, pickled beets, celery, mashed potatoes, green peas, cider, mince pies, assorted cakes, oranges, apples, bananas, nuts, raisins, candy, coffee cigars and cigarettes.

The Texas was at the New York navy yard, to be sure, but her relatives in the navy who passed the day in foreign ports probably fared quite as well, though their crews may have had to substitute some other bird for the turkey. The tars of foreign fleets welcome an American warship to an anchorage alongside on Christmas day, for they know what Yankee hospitality means. Seldom does a crew of an American vessel on service beyond the seas sit down to its Christmas dinner alone. While he may not be so generous as to call in the lame, the halt and the blind, man-o'-war's men from more than one imperial battleship or royal cruiser have occasion to remember with infinite regret the grub of the Yankee sailor.

After dinner general leave is granted and in home ports many of the sailors go ashore to visit relatives and friends. Most of the men, however, and on a foreign station practically all, remain on board for the sports to which the afternoon is devoted. Rowing is the most common feature of these contests, and where two or more vessels are gathered together there are highly exciting races for the championship of the fleet. On deck, boxing, wrestling and fencing vie for favor with sack races, three-legged races and athletic games which involve quick work in going aloft and getting down again. Frequently the programme ends with a pie eating contest, which never loses popularity with either participants or spectators. With their hands tied behind them, the pie eaters kneel around a table, a pie in front of each face. The man who can get away with his pastry in the shortest time, using teeth and lips only, wins a prize of some sort, while the losers have the consolation of having had an extra pie.

At so much time during the day the cap-

tain of the ship is likely to find himself confronted with a deputation of men representing those who have by infractions of discipline incurred demerit marks, carrying a pall of slack time and water and a whitewash brush, mutely pleading that their sins be washed out in honor of the day. The plea is usually effective.

The distribution of Christmas mail, following the athletic programme, takes the place of the distribution of gifts at home. The farther from "God's country" the ship happens to be the greater the interest in this ceremony. Much of the mail may have been posted by dear ones at home many weeks before Christmas, but the letters and packages bear the inscription, "Not to be opened before Christmas," and the officers see that the injunction is not disregarded. Often the seals of sacks known to contain Christmas mail are not broken until the time comes for its distribution, that the recipient may derive the greater pleasure from their treasures by enjoying them in common.

The officers have their dinner in the evening. The day has very likely been a lonesome one in the wardroom, for if the ship is on a home station all the officers who can get away and who have families spend the day ashore. At night, however, they return, bringing their "sweethearts and wives" with them. The naval regulations, ordinarily ignoring the very existence of women, permits them to dine aboard ship on Christmas day, and few "navy women" fail to take advantage of such a privilege. A good part of every officer's December pay is exhausted in the interests of Yuletide cheer and no guest has ever hesitated to pronounce the wardroom's Christmas banquet an unqualified success. Still, it sometimes happens that the enlisted men have a better dinner than their superiors, for the able seaman is an early bird, and where supplies are limited he may corner the market before his officers know what has happened. The crew of a man-of-war on the Asiatic station some years ago bought up all the

pie weighed 576 pounds, and it contained 9 geese, 2 ducks, 4 fowls (the kind not stated in the records), 6 pigeons, 6 wild ducks, 3 teal, 2 starlings, 12 partridges, 15 woodcock, 2 guinea fowls, 2 snipe, 6 plovers, 3 water hens, 1 wild goose, 1 curlew, 40 yellow hammers, 15 sparrows, 15 chadluchs, 2 jacks, 4 thrushes, 12 fieldfares, 6 blackbirds, 4 rabbits, 1 leg of veal, 1 ham, 3 bushels of flour and 28 pounds of butter.

In the language of the nursery rhyme concerning the four and twenty black birds baked in a pie, "wasn't that a pretty dish to set before the King?"

Christmas Gifts of Radium.
Last Christmas in London it was quite the thing to give Christmas gifts of radium. Of course only an infinitesimal particle of the precious substance was included in the present, and even then the gifts cost all the way from \$10 to \$50. An instrument called the spinthariscope, which consists of a small case about the size of that containing a finger ring, contained the radium particle, which was placed under a small lens like a microscope. By taking the contrivance into a darkened room and looking through the eye piece one could see varying lights flashing.

10 FEET

OF WATER IS EXPECTED ON THE PRESENT RISE HERE.

This Will Give a Stage of About 26 Feet—Colder Weather Is Expected.

With the rains of the past few days Paducah will have a stage of not less than 25 feet and if more rain follows there will be a greater volume of water.

Capt. S. A. Fowler, a good river prophet, said this morning that he expected a rise of ten feet here and as the gauge read about 17 feet this morning, this would throw the stage to about 26 feet, but he felt certain that the water would go to not less than 25 feet.

Forecaster P. H. Smyth, of Cairo, in his report sent out yesterday, which is always received here a day late, said in part:

The storm central has moved rapidly northeastward and caused precipitation within the past 24 hours throughout the Ohio and upper Mississippi valleys and Lake region. A second disturbance centers extreme southwest. Indications are for generally cloudy or partly cloudy weather for this locality for the next 36 hours, with a change to slightly colder tonight. Snow flurries are probable.

The Cairo forecaster is very accurate in his prognostications and it can be seen that he is hitting the present weather exactly. The weather report today states colder tomorrow so instead of rain there may be snow. Christmas may yet be white instead of wet.

We have the latest in kid gloves, elbow length, dressed, in black and white, at \$3.00.

HID IDENTITY 20 YEARS.

Jesse James, Slain in Oklahoma, Proves to Have Been M. C. Brodright.

Guthrie, Okla., Dec. 22.—It developed today that "Jesse James," who was murdered at Stillwater two weeks ago, was Martin C. Brodright, who disappeared suddenly from Richland Center, Wis., twenty years ago and was never seen afterward.

His identity was traced by means of an Odd Fellowship certificate found in his pocket. Today his brother, Frank Brodright arrived from Medina, S. D., to claim the remains. Two sisters live in Milwaukee.

Brodright came to Oklahoma at the opening in 1889, and lived by himself, a mysterious individual, thought by his neighbors to be mentally unbalanced. Two weeks ago he quarreled with Frank Houston of Stillwater in regard to the pronunciation of a word and was shot and killed by Houston. The latter surrendered, was declared insane and was placed in an asylum at Norman. Houston is treasurer of the Oklahoma grand lodge of Odd Fellows. A letter from Richland Center Odd Fellows states that Brodright's mysterious manner of living was inherited from his father, who was of the same nature. Brodright left a valuable estate in Payne county, Okla.

Cost the State \$11,000 to Catch Him.
Houston, Texas, Dec. 22.—The arrest, recapture and trial of Monk Gibson, charged with the murder of Mrs. J. F. Condit and four children near Edna, has been costly. The state paid \$3,000 for troops, and Sheriff Egg spent \$1,000 in rewards and other ways, the trial in San Antonio cost \$2,000, and the cost to private parties during the search for Gibson after his escape was fully \$5,000, making a total of over \$11,000.
